

SUNDAY SCHOOL OFFICERS

ELECTED FOR THE YEAR

At a meeting of the Sunday school board of the First Methodist Episcopal church, held Wednesday evening, the following officers were elected:

Superintendent, S. B. Henry; assistant superintendent, W. J. Hicks; secretary, Miss Gertrude Lindsay; treasurer, J. M. Franks; assistant secretary, Miss Esther Maltz; assistant secretary, Miss Mabel Vane; librarian, W. P. Clark; chorister, Grant Myers; pianist, Miss Pauline Koster; assistant pianist, Miss Rastin McCann; temperance superintendent, Miss L. E. Michael; missionary superintendent, Mrs. James McCann; grade roll superintendent, Miss Elizabeth Williams; home department superintendent, Mrs. William Alter; superintendent beginners' department, Miss Jessie Harris; superintendent primary department, Miss Edna Coway; superintendent junior department, Miss Grace Leckey; and superintendent intermediate department, Miss Isabel Nagle.

Fraternity Plans for Camp

Plans for the first annual camp of the Unity Fraternity have been taken up and a committee appointed to go ahead with arrangements. The camp will be held the last three weeks of August at Guard, Md. About 20 members of the "frat" will be attending. The committee in charge of arrangements is composed of James D. Scoll, D. K. Diworth, Paul McDonald, Walter Morton and William J. Bixler.

D. of A. to March

Members of the Daughters of America who expect to take part in the parade in Uniontown tomorrow are asked to leave here on the 11:15 o'clock street car.

Buttermore Reunion

The annual reunion of the Buttermore family will be held Saturday, July 26th at the Marietta farm. Instead of August 2, as previously announced. West Penn cars arriving at Murphy siding between 8:30 and 11:30 A. M. will be met by automobiles.

Enjoyable Dance

Shady Grove park was the scene of an enjoyable dance given last evening under the auspices of the B. B. Miller, R. D. Adams and William D. Vans. Music was furnished by the Melody Makers of Phillipsburg.

Altruistic Bible Class Meets

Mrs. W. H. Berger entertained the Altruistic Bible class, of which she is teacher, of the Christian church Tuesday evening at her home in Vine street. Fifteen members and guests were present. A business meeting was held, followed by a social session and refreshments. Miss Anna Fay Thompson of Bellefonte, O., and Miss Eliza Edwards of Crossland, both students of Bethany college, and Miss Doris Cunningham, a student at William Wood college, were guests.

Reed-Darwin

Miss Margaret Eleanor Reed, daughter of Mr. and Mrs. A. L. Reed, of Uniontown, and David Edward Darwin of South Brownsville, were married Wednesday in the Ashbury Methodist Episcopal church in Uniontown, the bride having the honor of being the first woman to be married in the new church. Rev. Dr. J. M. Thoburn, officiant. Mrs. Darwin is one of the best known young women of Uniontown and is a granddaughter of the late Rev. Joseph Marshall of Upper Meriden, one of the early pioneer Methodist ministers. She was graduated from the California State normal and has taught in the schools of Fayette county and also in the city schools of Amsterdam. The bridegroom is a son of Squire and Mrs. Herbert Darwin of Jefferson township and a nephew of the Robb Darwin of Dawson. Following a wedding trip to Atlantic City and other points of interest Mr. and Mrs. Darwin will be at home in South Brownsville.

Women's Guild Meets

At the regular meeting of the Women's Guild of the Trinity Episcopal church held last evening in the

church house with Mrs. Leary hostess it was decided to hold the sixth of a series of parties Friday evening, July 25, at the home of Miss Pearl Wroto in Vine street. Mrs. Wroto was a new member received. The next regular meeting will be held Wednesday evening, August 6th, in the church house. Mrs. William McFarland will be hostess.

To Entertain Club

The Always Busy Club will be entertained at the West Penn Tea Room tomorrow afternoon at 2:30 o'clock by Mrs. Edward Stahl.

Choir Rehearsal

The choir of the Trinity Episcopal church will meet for rehearsal tomorrow evening promptly at 7:30 o'clock in the church house.

Christian Culture Class

The Christian Culture class of the United Presbyterian church will meet tonight at the home of Mrs. Harry Franks in Allegheny avenue, South Connelville.

PERSONAL

Mrs. H. D. Whipp and children, Robinette and Donald, have gone to Cumberland, the former home of Mrs. Whipp, to visit relatives.

Miss Edna Harmon is spending a two weeks' vacation with relatives at Marion, Ind.

Sing praises to Dad, to "Dear Old Dad." Greatest Father, "Dad" ever written. Woodworth's. Adv.-27-11.

Miss Katherine Falty left yesterday for Chicago to visit her cousins, Misses George and Nellie Tally.

Mrs. Fred Fitcham, and children of Grove City, have returned home after a visit with the former's mother, Mrs. Mary James.

The best place to shop after all, Brownlee Shoe Company. Adv.

Mrs. Stanley Jackson and little daughter, Dorothy, of Jacksonville, Fla., who are the guests of the former's parents, Mr. and Mrs. T. J. Smith of Ninth street, Greenwood, returned last evening from Pittsburgh, where they visited relatives.

Sing praises to Dad, to "Dear Old Dad." The waltz song with a heart. Woodworth's. Adv.-27-11.

The condition of Dr. G. W. Newcomer, who is a patient at a sanatorium at Battle Creek, Mich., according to word received by Dr. A. J. Colborn from the nurse, he is able to be wheeled about in a chair.

Miss Irene Buttermore, daughter of Mr. and Mrs. James W. Buttermore of South Prospect street, who was graduated this year from the commercial department of the city high school, has secured a position in the stenographic department of the Union Switch and Signal company at Swissvale.

Mrs. Basil J. Soisson went to Pittsburgh this morning.

Mrs. J. J. Dougherty and daughter of East Cedar avenue, are in Pittsburgh today.

Mrs. C. L. Eaton, Mrs. William Brickman and Mrs. L. P. McCormick are spending the day in Pittsburgh.

Mrs. R. S. Breshear and sister, Miss Anna Presley, went to Pittsburgh this morning.

Dr. and Mrs. J. L. Cochran and daughter, Mary Caroline, and Miss Edna Cook left Tuesday night for Atlantic City. Miss Harriet Huston, sister of Mrs. Cochran, of Dawson, left this morning for the seashore to join the party. Dr. Cochran will return tonight.

Mrs. S. M. Goodman of the Yough House is visiting in Pittsburgh.

Mr. and Mrs. L. J. Buttermore and daughter, Jane, who have been camped at Guard, Md., returned home today. Mrs. G. S. Connell, a daughter of Mr. and Mrs. Buttermore, who spent several days at the camp, returned home yesterday.

Mrs. Alice Bell and daughter, Mrs. Alice Davis, and son, Andrew, of Pittsburgh, are guests of Mr. and Mrs. P. C. Rose of North Pittsburgh street.

Mrs. W. R. Jones of Wilkinsburg, who has been the guest of her parents, Mr. and Mrs. Jerome McCormick of West Fayette street, has returned home. She was accompanied by her niece, Hilda Mae Benford.

Miss Genevieve Soisson of West

CUTICURA HEALS BABY'S PIMPLES

On Head, Forehead and Face. Terribly Inflamed.

"When my baby was six weeks old I noticed a scale on her head that started in the form of small pimples, which dried in the form of a scale. The whole back of her head, forehead, and down both sides of her face was terribly inflamed. She did not have one hair on her head."

"My neighbor suggested that I try Cuticura, and I got them. I used one cake of Soap with two boxes of Ointment when she was healed." (Signed) Mrs. A. Levy, 3027 N. 25th Street, Philadelphia, Pa., July 7, 1918.

Cuticura Soap and Ointment are all you need for all toilet purposes to keep the skin clear.

Cuticura Talcum Powder Do not fail to test the fascinating fragrance of this exquisitely scented face, baby, dusting and skin perfuming powder. Medicinal and toilet. Soothes and cools the skin and overcomes heavy perspiration. Cuticura Soap, Ointment and Talcum 25 cents each everywhere. Sample Each Free by Mail. Address: "Cuticura, Dept. B, Boston."

IT LOOKS AND IS COOL

Chiffon, this airy fabric of a morning, has been chosen to be printed all over with cool grey-green shadows of leaves and to be cut into the simplest of billows, short-sleeved frocks. The fulness of the skirt, which is demanded by so sheer a material, has been gathered into a straight band of fashionable narrowness. Navy blue satin ties fasten into becoming bows at neck and girdle.

Peach street, who underwent an operation at the Mercy hospital, Pittsburgh, is getting along nicely.

W. P. Brooks, a member of the editorial staff of the Pittsburgh Dispatch, was here for a short time this morning on his way to Uniontown to represent his paper at the home-coming celebration.

ORE SHIPMENTS

To July 1 Felt Off 3,000,000 Tons, but Furnaces Have Accumulations.

Shipments of iron ore down the lake totaled 7,889,339 tons in June, against 9,921,350 tons in June of last year. The season total to July 1 is 16,095,312 tons, against 19,419,730 tons last year.

While there is a decrease of nearly 3,000,000 tons, it must be remembered that last season's ore movement was on the basis of full operation of the blast furnaces to the opening of navigation this year, and the furnaces have run far from full, so that there is an accumulation of ore at furnaces and on Lake Erie docks that must be liquidated.

RURAL CARRIER TESTS

Examinations Announced For Many Places in County on August 9.

Civil service examinations to fill the position of rural carrier at Adah, Belle Vernon, Dawson, Smithfield, Champion, Connelville, Dunbar, Fayette City, Normalville, Point Marion and Smock will be held at Connelville, Uniontown and Brownsville on August 9. The examinations are open to all citizens, including women, who are domiciled in the respective areas. Application blanks and necessary information may be secured at any of the above named post offices.

Amended Bill Passed

WASHINGTON, July 17.—Amended to provide \$14,000,000 instead of \$6,000,000, for the rehabilitation of wounded soldiers, sailors and marines, the sundry civil appropriation bill, which was vetoed by the President, was passed today by the House and sent to the Senate.

Marriage Denied

Miss Florence Mae Hart of Normalville denies the report of her marriage to Milford C. Johnson of Armbrust, said to have been solemnized on last Thursday in Pittsburgh. Miss Hart has been elected to a school at West Leisening and expects to take up her duties at the beginning of the term.

"Farm Mistakes"

Mr. and Mrs. A. C. Ogilvie of "Glen View," near Leisening No. 1, will be host and hostess at the monthly meeting of the Union Farmers Club of Fayette County Saturday. The topic for discussion is "Farm Mistakes We Are Likely to Make."

Dr. C. H. Sherry

The well-known chiropractor has recovered from a broken arm and will be in his Uniontown office starting next week, Monday, Thursday and Saturday. He invites all his Connelville patients to call by phone and make appointments. Adv.-17-11.

1,293 More Troops Home

NEW YORK, July 17.—Forty-seven casual companies were among the 1,293 troops arriving here today from Marseille on the steamship Tearo. They were organized from men living in Pennsylvania, West Virginia and Ohio.

Dance

Big home-coming dance in the Standard rooms, Uniontown, Thursday evening. Dancing, 8:30 to 12. Music by Bowers' six-piece orchestra. Committee, Ira C. Williams. Adv.-17-11.

Skirts to Be Shorter

NEW YORK, July 17.—Skirts will be shorter or narrower this fall. The Dress Fabric Buyers' meeting here, have found there isn't enough cloth to go around so economy will have to be practiced in some direction.

Cabaret

Jazz, Dancing, Concerts. July 18, 19 and 20, Summit hotel, Uniontown, Pa.—Adv.-15-5.

The Grim Reaper

MRS. WILLIAM RIDENOUR. The funeral of Mrs. William Ridenour will be held tomorrow afternoon at 1 o'clock from the family residence in Shaffer street, Brownsville, with Rev. E. M. Bowman officiating. The interment will be made in the Scottsdale cemetery, the funeral party arriving there about 4:30.

WILSON HICKS.

Wilson Hicks, 63 years old, died Tuesday morning at his home in Brownsville of Bright's disease.

JOHN P. SMILEY.

Rev. H. L. Humbert, pastor of the Methodist Episcopal church of Dunbar, officiated at the funeral of John P. Smiley, held yesterday afternoon at 2 o'clock from the family residence at Dunbar. The pallbearers were James and Maxine M. Smiley, sons of the deceased, Leola, Blair, Frank and Robert Smiley, grandsons. The interment was made in Mount Auburn cemetery, Dunbar. Among out of town persons attending were M. M. Smiley, Pittsburgh; Mrs. Kincaid, Scottsdale; Miss Irene Lucal, McKeesport; and Miss Gladys Lucal, West Newton.

DR. T. M. WALDRON.

Dr. T. M. Waldron, 55 years old, a well-known veterinarian of Uniontown, died Wednesday at his home there as the result of a severe caruncle which is said to have been caused by a gas explosion in which the doctor dislocated his shoulder and suffered other injuries.

MRS. EDNA MAY LEWIS.

Mrs. Edna May Lewis, 24 years old, died Wednesday morning at the home of her parents, Mr. and Mrs. Amos Crawford, at Lemont, of pneumonia. Her husband, parents, and several brothers and sisters survive. The funeral will be from the Crawford home tomorrow afternoon with interment in Cove Run cemetery.

Scottsdale Fancypark Club

Mrs. J. D. Hill delightfully entertained the Scottsdale Ladies' Fancypark club yesterday afternoon at her home in Grove street, Scottsdale. Charming pink appointments, with roses forming the attractive decorations, predominated. Fancypark was the amusement and later in the afternoon a delicious luncheon was served on the spacious porch by the management of the West Penn tea room. Twenty-five guests were present.

DEAD OF 110TH

Remembered in France on Memorial Day; All Graves Decorated.

Lieutenant Colonel John Aiken of Washington, acting commander of the 110th Infantry when it returned from France, has received a letter from Lieutenant James A. Shaw, formerly of Company H, in which he told of having helped on Memorial Day to decorate the graves of all men of the 110th who fell in France. In this letter Lieutenant Shaw says:

"I visited, on Memorial Day, Courmont, France, and those many other little towns where we spent so many days last summer. Tell the people that they need not worry, the graves of all the boys who fell over here were taken care of on that day."

Wires Cause Trouble

Electric wire trouble last night caused a fire at the home of Mrs. Mary Saeedon in Twelfth street, West Side. A chandelier in a downstairs room was burned off but the damage was slight. The fire department was called out, an alarm being turned in at 9:45 o'clock.

Granted Marriage License. John T. Dabney and Minnie Elrich, both of Sutersville, were granted a marriage license in Pittsburgh.

MAZOLA

Why Mazola Saves Money in Cooking and Makes Food Better

ONE of the most important things Mazola does for cooking is to take the place of butter.

In frying or shortening it gives the finest results. And, pound for pound, it costs considerably less. Foods cooked with Mazola, or in which Mazola is used, are wholesome, beautiful, very easy to digest. Use 1/4 to 1/2 less Mazola for shortening than butter or lard. In frying, use Mazola over and over again to the last drop—it never absorbs odors or flavors. No smoking—no soggy cooking.

FREE Wonderful Cook Book. Write today for it.

POWERFUL PILE REMEDY DISCOVERED

Has Never Failed to End Most Obstinate Cases of Piles in Few Days

For years it has been proved that so called external remedies applied to or inserted in the rectum cannot cure piles and at the best can only give temporary relief. Surgical operations also do not remove the cause but simply the formation.

This wonderful prescription known as Miro Pile Remedy is so efficient in the treatment of piles that even chronic cases of from 20 to 30 years standing with profuse bleeding have been completely cured in from three to ten days. Think of it! Just a few doses of a carefully balanced prescription and the most persistent case of piles is absorbed never to return.

The Connelville Drug Company dispense Miro or can get it for you on short notice. Surely it is worth the little trouble to obtain it to be rid of piles forever.

Important! What is known as the Miro Pile Remedy is the true cure of the word although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in each case it is not necessary to take the internal prescription.—Adv.

THOMPSON-PIEDMONT DEAL IS RATIFIED BY THE CREDITORS

Ninety-six Per Cent Go on Record for the Sale at Meeting in Uniontown.

With the creditors committee voting 96 per cent of the claims against the J. V. Thompson estate in favor of the ratification of the sale of the estate to the Piedmont Coal company of West Virginia both as to the number of claims and the aggregate amount they represented. Referee in Bankruptcy J. G. Carroll sitting at a very large and attended meeting of the creditors held in Court Room No. 1 Uniontown Monday declared that without further vote being taken the sale had been ratified by the creditors.

The other four per cent however were permitted to register their vote as which some of them did while others preferred to stand on the exceptions and protests they had filed and refrained from voting.

Dickerson Run.

DICKERSON RUN, July 15—Mr. and Mrs. E. J. Beatty, Mrs. L. W. Addy and children were the guests of Mr. and Mrs. J. V. Beatty at Smithfield Sunday.

Mrs. F. M. Rush was a Connelville caller Tuesday evening.

If Maetta of Mt. Run is here being a guest of Mr. and Mrs. Whiskey.

TO RECRUIT MEMBERS FOR LEGION DURING UNIONTOWN WELCOME

Hope is Placed Every Service Man At Landing Will Become United With Organization

In line with its avowed policy of justice, liberty and democracy the American Legion has now provided for membership for the splendid women who gave so unselfishly of their services and whom all the world admires for their devotion to duty for no one says J. C. Donahue county chairman can so thoroughly appreciate the wonderful work the splendid women of America did as well as a man who was in service during the war and the Legion believes it is but just and right that their services shall be recognized and that they shall be permitted to affiliate with the very men with whom they worked and labored so valiantly in the past.

Great strides are being made in the organization of the Legion through out the United States and no section is coming faster than Fayette county and during the welcome home celebration in Uniontown temporary headquarters will be opened at the Keystone garage where a number of the service men will be on duty to explain the principles and aims of the Legion.

A post of the Legion can be organized in almost every hamlet or city of the United States for wherever it is possible to gather together fifteen men who have seen honorable service with the United States Army or Navy there is a post of the American Legion can be instituted and again the thoroughly democratic principles of the Legion are exemplified by the fact that all these have been attained and the neighborhood and the general side by side as plain American citizens.

The American Legion is strictly non-partisan and non-political a civilian organization not military nor military and it makes no distinction of rank nor distinction of over seas men or men who did not get overseas. A cardinal principle being 100 per cent Americanism and unless a candidate is a native in this respect at first and last and the time he is thoroughly unwelcome and will not be tolerated within the organization. Another thing planned for the very near future is to get in touch with every clergyman in Fayette county to have them become acquainted with the ideals and principles of the American Legion and bring it to the attention of the congregations so that not only the service men who may be members of their congregations but the congregations as a whole will realize that the American Legion appeals to and seeks the aid of all the best elements of the community for the sole and only purpose of helping to make this world and keep it safe for democracy.

TO REDUCE DANGEROUS VARICOSE VEINS

People who have swollen veins or hemorrhoids are in a very uncomfortable position. The pain is not only a nuisance but it is a danger to the health. It is a condition which means much suffering and loss of time but which can be cured from any reliable source. A two ounce siphon bottle of Moore's Emerald Oil (full strength) is using this powerful yet harmless medicine treatment improvement is gained in a few days and by its regular use the veins will return to their normal size and suffering will be a thing of the past. Moore's Emerald Oil treatment is used by physicians and in hospitals and is guaranteed to give as good results as money returned. It reduces all kinds of enlarged glands, goiters and warts and is used successfully in many of the factories as a skin lotion. First aid kit in use in the home. Your druggist can supply you.—Adv.

Ohio.

In Silk Attire My Lady Goes

It looks as if the time were not far away when women will discuss "undergarments" in the realm of cotton and is flourishing there astonishingly. Just as the silk stocking is not looked upon now as a luxury but as a necessity of good dressing and its use enormously increased so silk undergarments are making place for themselves. Women find them desirable because they are fine and they prove to be as durable and as durable as fine batiste or other delicately woven cretons. And the sheen and feel of silk are indelible—it is the easiest thing in the world to cultivate the silk habit and next to impossible to break it.

The shops are showing silk undergarments that are moderately priced along with more silk undergarments that are high priced. But price means nothing to the girl of today—if she has it—to buy the thing she wants when she wants it. There is a popular and a growing demand for silk undergarments which means that the wanted garments will be supplied in increasing numbers and that the prices will not be likely to go higher.

The silk most used for undergarments is crepe de chine in wools and flesh pink. For ornament hemstitching French knots simple embroidery and val or flut lace especially in insertions are all equally popular. Other wash silks in lacy taffeta and wash satins find advocates who like them as well as crepe de chine. They all wash easily, the crepe looking especially well after it is tumbled. They should be wrung with wringer not twisted in the hand folded in a sheet and ironed while still a little damp with an iron that is only moderately hot.

To Blow in New Furnace.
Official announcement has been made that the new 600-ton blast furnace of the Weirton Steel company Weirton W. Va. will be blown in next Monday.

Canada to Build Steel Works.
A contract for 250,000 tons of ship plates involving five years work and construction of a large rolling plant at Sidsby Nova Scotia at a cost of about \$5,000,000 was let to the Dominion Steel company of Montreal by the government.

SCOTSDALE SKY PILOT AIDS IN HARVEST FIELD

Rev. I. E. Runk Makes Himself Useful in Various Ways.

OPERATES A FARM TRACTOR

During Pastoral Calls Minister Finds Abundant Crops but Few Harvest Hands and Promptly Tenders His Assistance; First Dance of a Series.

Special to The Courier.
SCOTSDALE, July 17.—The farmers of this community are harvesting greater crops than in years. This is the declaration of Rev. I. E. Runk, pastor of the United Brethren church, who has been laboring in the harvest field with members of his flock. On his pastoral calls the minister's attention was drawn to the abundance of the yield of various farm products, also to the fact that the farmers are short of help. He volunteered his aid and has since been working side by side with the farmer members of his congregation.

On one call the pastor found he could be useful in helping operate a tractor. This he did. Earlier in the season he had witnessed a tractor demonstration and the knowledge gained there was put to good use on the more recent occasion.

Informal Dance.
The first of a series of informal dances will be held in Reid hall on Friday evening. The committee in charge is Nevin Muir and Gilbert Gova.

July Clearance Sale.
Scottsdale's greatest bargain event starts at 9 o'clock Friday morning, July 18. Adhering to our policy of honest merchandise, truthfully advertised, we come to our semi-annual clearance of all seasonable merchandise in order that our store will be ready to receive the fall shipments which will arrive early in August. We sacrifice prices to such an extent during these sales that all of this vicinity have come to watch and wait for the announcement of the date, and the response is proof of the wonderful opportunity to save from 40 to 50 cents on every dollar spent. All goods are displayed on racks, counters and bins, with the price marked on each article—one price to all—and a price that will convince the most skeptic that we are the underselling store of this community. Read every item on this circular and come early and often.

Brooms, 15c—150 brooms go on sale from 10 to 11 o'clock Friday morning at 15c each. Regular 75c value. Just one to a customer and none sold to children. Bendiner's Broadway Ladies' Store, as you get off the car, Scottdale.—Adv.

Personal.
Have that electrical repair work done now. Call the Electric Shop, 270-W. S. C. Freeze, manager.—Adv. 12-6t.

Miss Elizabeth Wray has gone to Columbus, Ohio, to visit friends. Mr. and Mrs. C. L. Kellinger will leave tomorrow for Rochester, N. Y., where Mr. Kellinger expects to attend the congress of the American Optical association and the clinical lectures at the Rochester College of Optometry. They will be gone for 19 days. Born to Mr. and Mrs. Thomas N. Brownfield, a son, at their home here yesterday.

William Bendiner spent yesterday in Pittsburgh.

WILL USE TRUCKS

To Supply Coal to the Industries of Washington and Vicinity.

The Washington Gas Coal company has been organized at Washington, by interests associated with the Conoco Gas Coal company, for the purpose of furnishing coal to the local industries of Washington by truck transportation exclusively.

The company, which recently bought a block of 600 acres of coal land north of Washington for \$250,000, is already at work on development of the property. A shaft 280 feet deep and a slope 1,000 feet long will be constructed to reach the coal through two openings.

The organization of the company was prompted by lack of industrial fuel in the past few years, due to shortage of cars and lack of railroad transportation facilities. The mine will have a capacity of 1,500 tons a day, and will furnish part of the coal for local domestic consumption.

It is estimated that \$3,000,000 will be saved in freight through handling the coal of the tract by truck instead of transporting it by railroad.

Would Bar Immigration.

Senator Myers of Montana has introduced a drastic bill in the Senate to prohibit immigration for Germany, Austria, Hungary, Turkey, Bulgaria and their possessions for 50 years and for all other countries for 20 years.

May Aid Historical Societies.
Third class citizens are permitted to make appropriations to historical societies by the terms of a bill signed by Governor Sprout on Monday.

Heal Skin Diseases

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. Zemo, obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torments. It cleanses and soothes the skin and heals quickly and effectively most skin diseases. Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress. The L. W. Rose Co., Cleveland, O.

FULL OPERATION OF STEEL MILLS DEPENDS UPON DISTRIBUTION

Of Demand More Than Upon a Large Increase in General Business Activity; Is Now One-Sided.

It has become clear, says the American Metal Market, that operation of the steel industry at its full capacity awaits not so much a large increase in the general business activity of the country as a better and more normal distribution of demand among the various finished steel products. The steel industry is highly specialized as to its finishing departments. Each department must receive its proper quota of orders and as a rule cannot fill orders that belong to other departments. There is some flexibility as between rails, billets and sheet bars, and some as between heavy gauge sheets and light plates, but rod mills and structural mills have nothing in common.

The demand for a number of steel products has so increased that the departments involved are operating at capacity, but this does not help other departments. The lap weld departments of the pipe mills are filled with business for several months ahead, but this does not help the rail mills. The sheet mills promise soon to be operating at capacity but this does not help the plate mills which have an operation of 50 per cent. Other corresponding comparisons could be made.

The situation furnishes striking testimony to the havoc that free play of the law of supply and demand, working out through strictly competitive selling, would work. If there were absolutely free play one would see wire nails selling at fancy prices and wire fencing at very low prices, perhaps cost less overhead. Lap weld pipe would command fancy prices and plates would go begging. Rails would sell at much less than sheet bars and the director general of railroads would not have his complaint that they are priced too high relative to billets.

What the steel industry now needs to round out its activities is rail buying and more steel construction work generally. When the normal condition is for the railroads to take 15 to 25 per cent of the total output of steel it is obvious that the facilities for producing the lines of finished steel required by railroads cannot well be employed in filling orders for totally different classes of construction. As to building in general, dwelling house construction, of which there is much and of which there promises to be more, cannot take the place of factory, hotel and office building erection. Dwelling house construction tends to fill up the wire nail departments and gives some business to butt weld pipe furnaces, but it practically stops there.

Until demand is more normal in its distribution, therefore, a more or less one-sided operation of the steel industry is to be expected. "Full operation" does not hinge upon business activity alone, but also upon the character of the activity.

Help Rebuild Trans-Siberian Road.
The House has agreed to the proposal of Wilson to contribute \$1,000,000 additional from his emergency fund for rebuilding of the Trans-Siberian railroad in Russia.

The railroad will be a joint affair, participated in by Great Britain, France and Japan. The United States has already advanced \$1,000,000.

Scottdale Output Smaller.
Scottdale's coal output last year was 26,121,424 tons, a decrease of 2,355,526 tons compared with that of 1917. The number of persons employed was 121,477, of whom 96,558 worked underground and 27,919 above ground. In 1917, 120,027 were employed.

Kills Pesky Bed Bugs P. D. Q.

A Two ounce box of P. D. Q. makes a full quart of the best bug-killing emulsion. Better than a barrel of old-fashioned kerosene. Kills bed bugs, roaches, ants and chicken lice, and not only kills the live pests, but the eggs as well.

P. D. Q. won't injure clothing, carpets, curtains, draperies or wall paper. Try it on the dog and see the flea-bait.

Your druggist has it.

Sold by Connelville Drug Co., and other leading druggists.

At the Theatres.

THE PARAMOUNT.

"LOVE AND THE WOMAN"—A forcefully emotional drama with thrills and surprises and two remarkable characterizations by June Elvidge, the popular World star, is being presented today. Miss Elvidge appears in two distinct roles. In the one role she is seen as a chambermaid in a cheap hotel, while in the other she is seen as the daughter of a rich man—a young society girl who does not know what poverty and hardships really are. These two roles give Miss Elvidge the greatest possible opportunities for the display of her abilities as an actress and also give wide opportunities for her different costumes. "Love and the Woman" will give you the most interesting sort of entertainment. Be sure to see it. Mary Dorsey seeing the opportunity, substitutes her baby, for the child of a very prosperous man whose wife dies in the hotel, where Mary works and whose baby is of the same age as her own. As would be expected from such a situation, all sorts of complications ensue and the interest in the drama grows with every foot of film. An interesting weekly review is also being shown. Friday and Saturday Pauline Frederick, supported by Milton Sills, will be presented in "The Fear Woman," a Goldwyn production.

THE SOISSON.

"THE ECHO OF YOUTH"—In which Leah Baird, the well known actress, plays the role of a cabaret singer who has social ambition, is today's feature attraction. The story is that of a man highly successful from a worldly standpoint, whose home life is not as happy as it might be, due to the lack of understanding, each of the other, on the part of himself and his wife. From out of the shadows of his past comes the ghost of an unaccountable action, committed in his youth and almost forgotten, to haunt him—threatening destruction not alone of the professional standing he has spent his life in building up but also the happiness of a beautiful daughter, a being he loves better than any one on earth, by taking away from her the man to whom she has given her heart. Then, as fate is wont to do, she sweeps away seemingly impossible barriers in a manner that establishes one of the strongest emotions ever written in a play—brings the young lovers together again and regenerates the romance in the lives of the parents, giving to the characters as reward for sorrow they have suffered a greater happiness in the thought of what might have been. Other members of the cast are Charles Richman and Pearl Sheppard. A selected comedy is also being shown.

THE SOISSON.

"DADDY LONG LEGS"—In which Mary Pickford, the idol of the screen, is seen as Judy Abbott, mothered by an ash can, christened by a telephone directory and reared on the whole-sale plan, will be presented Monday and Tuesday. Everybody who loves a baby is destined to a treat when they see "Daddy Long Legs." More than a score of the cutest kiddos on the screen aid Miss Pickford. The earlier scenes are enacted in a great orphanage asylum where dozens of children, worn pathetic charges without father, mother or near relatives, are supported by the bounty of John Grier, who

obtained his ideas of how a charitable institution should be run while directing convict labor. Into this institution there comes at the opening a baby different from the rest. She grows to a child of 12, being named Judy Abbott, because this name looked good to the tyrannical head matron. One of the funniest of all the humorous things is that in which Judy and a freckled face little boy decide to lead the orphans in a "prune strike." Quarreled by the matron they are driven into the yard without food. They and a jug of hard cider and some sandwiches which, innocently enough, they consume, whereupon they both become gay and get into all sorts of mischief. Supporting Miss Pickford are Milla Davenport, Mahlon Hamilton, Lillian Langdon, Marshall A. Neilan and others.

FATHER LAMBING'S 40TH ANNIVERSARY IS BEING OBSERVED

Continued from Page One.

and incidentally of the growth of the Catholic church in the coke region, may be gleaned from the fact that in the territory which he attended as one mission there are now seven parishes. With priestly zeal and with tireless energy Father Lambing carried on the work of shepherding the flock of Christ in this extensive territory. In 1851 the present church of St. John the Baptist was erected, and in 1856 the church of St. Joseph, Mount Pleasant. The Scottdale parochial school was built in 1889, and in the same year the convent for the Sisters of Charity who teach in the schools was erected. To the school, which has always been very successful, a fine addition was built in 1918. These and other parish buildings and properties show the material prominence of Father Lambing's parish, but more than this they represent the wonderful spiritual work which this zealous priest has accomplished.

Today is a happy day for St. John's congregation and for the people of Scottdale. Father Lambing has the love of his people and the highest respect and esteem of non-Catholics as a sterling citizen to whom the interests of the community have ever been paramount.

The following will be among the speakers at the banquet this evening, at which V. W. Yabner will preside as toastmaster: Rt. Rev. Regis Canevin, Rt. Rev. Aurelius Steble, Rev. Stephen J. Schramm, Rev. Augustus P. Black, Rev. John T. Burns, Rev. Peter Rigler, Rev. Henry J. Duval, Rev. Francis Kolb, W. A. Todd and J. P. Owens.

To Hold South American Trade.
Government officials express the view that the United States will be able to maintain much of the market it has gained in South America for bituminous coal. A big increase in exports of coal to the southern countries is expected this year, despite a decrease last year.

MANAGER GRIFFITH DECLARES WALTER JOHNSON AS GOOD AS HE EVER WAS

Washington Twirler Who is Good for Several Years.

"Walter Johnson has four or five more years before him," declares Manager Clark Griffith of the Nationals. "Johnson is as good as ever he was," Griffith continued. "He is just past his thirty-second birthday and when seen at work he really looks like a youngster."

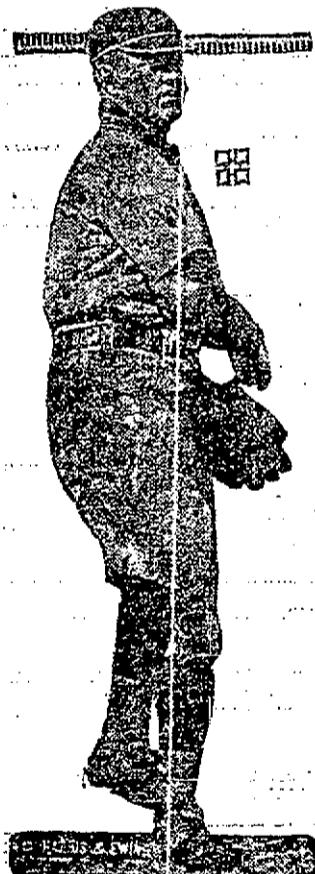

Asked whether Johnson was suffering with a sore arm this season, the manager replied: "I have never known Walter to have a sore arm. There was talk about his arm being sore at the opening of the season, but it was not so. He was suffering from a bad cold, which caused general indisposition."

GRIFFITH SWEET ON FOSTER

Manager of Nationals Thinks His Third Sacker is One of Great-est Place Hitters.

Clark Griffith—always an extravagant talker, and at the same time a renowned baseball sage—is ready to boost Foster. Here is a sample:

"I have had on my teams the three greatest place hitters in the history of baseball, and I want to tell you that of the three, Eddie Foster is the best."

Eddie Foster.

The others are Willie Keeler and Hal Chase. Willie taught Hal, and Hal taught Eddie.

"Foster is the smartest batter I ever saw. A pitcher usually can tell by the position of the batter's feet where he hopes to hit, just as a boxer gets a clue on the schemes of his opponent by watching his opponent's feet. If you see a right-hand batter's feet set for an attempt to hit to right field, you can pitch fast inside, and nine times out of ten he will pop up."

Introduce American Methods. American methods, introduced on the Selue at Paris, of coaching a rowing crew by use of moving pictures, have been the subject of lively discussion among French athletes.

New Pitcher for Senators. Manager Griffith of the Washington club secured Pitcher Whitehouse of the Minneapolis American association team in exchange for infielder Davis.

American Coal in Switzerland. American coal is being delivered in Switzerland at a cost from 150 to 180 francs per ton, against 123 francs 40 centimes for German coal. The American coal, however, is delivered unconditionally, while Germany, France and Belgium require return shipments of cattle, condensed milk, cheese and other products.

Railroad Equipment Costly. Equipment purchased by the railroad administration and distributed among the country's railroads is valued at \$400,000,000.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of a healthy physique, there are a vast number of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by Connellsville Drug Co., in Connellsville and almost all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience writes: "Bitro-Phosphate has brought about a magic transformation with me. I have gained 15 pounds and never before felt so well."

CAUTION: — Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its tendency to increase weight, be used by anyone who does not desire to put on flesh.—Adv.

AMONG THE NEW SMOCKS

The smocks become prettier and prettier season by season and gain in popularity accordingly. Here blue butchers linen is combined with white which is laid cleverly under the blue both at base and neck. A bit of hand embroidery in pink and green lends a delightful touch.

COAL OUTPUT

Is 74,500,000 Tons Less Than at Corresponding Date Last Year.

The production of bituminous coal in the week ended July 5 is estimated at 7,459,000 net tons, an average per day for the five working days, of 1,491,800 tons, compared with an average per day of 1,575,000 tons in the previous week, as against 2,050,000 tons in the week ended July 6, 1918.

The production for the calendar year to date was 230,261,000 tons, nearly 74,500,000 tons less than in the corresponding period last year. The average daily production, considering only working days, has been about 500,000 tons less this year than last year.

Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tells Druggists Not to Take a Cent of Anyone's Money Unless Alleviate Completely Damages All Rheumatic Pains and Twinges.

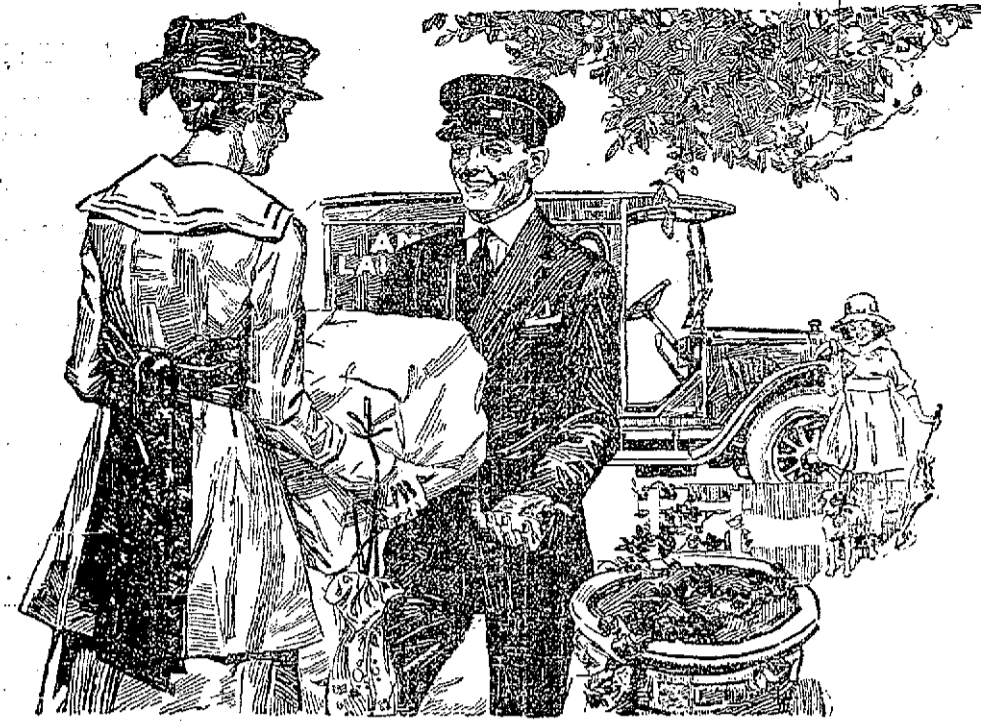

Mr. James H. Allen, suffered for years with rheumatism. Many times the terrible disease left him helpless and unable to work.

He finally decided, after years of countless study, that no one can be free from rheumatism until the accumulated impurities, commonly uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Connellsville Drug Company has been appointed agent for Allen's in this vicinity with the understanding that they will freely return the purchase money to all who state they received no benefit.—Adv.

Coal Consumption in East Indies. Consumption of coal in the Dutch East Indies increased in 1914 from 600,000 tons annually to 1,000,000 tons. Before the war 400,000 tons of coal were imported annually, chiefly from Australia and Japan.

Copyright 1919, The A. L. M. Co.

A Message to Women

The times have brought new and trying housekeeping problems to you—problems that have become intensified by the difficulty of securing competent domestic help.

It has accordingly devolved upon you, as upon other modern women, to be mistress of many things. While acting as mother and business manager in the home, you must also give ear nowadays to appeals of the community for welfare work and social service.

You have larger responsibilities and more to do, with less time in which to do it—a condition which prompts us to invite your attention again to the family service our laundry offers. We can assume for you the burden of the family washing.

We are well qualified to take over this duty. Our laundering methods have become perfected to a degree that even the most competent of laundresses cannot excel. Practices like

boiling and bleaching, for example, have been replaced by us with the improved method of sousing and rinsing in water of velvety softness and suds of pure white soap.

If you seek leisure for more devotion to the interests of your children, or time for many of the other bigger things in life, could anything be simpler than to pack your washday troubles in a laundry bag and send them to us?

Or could anything be more satisfying than to have your washing come back to you at a definite time each week, sweetly clean and beautifully finished?

Ours is a modern laundry that can give you such service—a laundry in which you will find men and women who are courteous, accommodating and desirous of extending you that washday help for which you have been waiting.

Meet your multiplied housekeeping problems in the modern way—send us your family washing. A telephone call will bring our driver.

Connellsville Laundry Co.

A Message to Mothers

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you: the doctors with souls and hearts: those men who are responding to your call in the dead of night as readily as in the broad daylight: they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

DECLARES RAILROADS FACE BANKRUPTCY IF RATES ARE NOT RAISED

Income Inadequate and Government War Guarantee Is Sole Salvation.

In an analysis of the earnings of the railroads for the first five months of the year, Frank H. Payant, assistant to the chairman of the Association of Railroad Executives, find that operating costs have increased to such an extent and cut into net revenue so deeply that the roads face bankruptcy unless freight rates are raised. The government war guarantee of income alone stands between the carriers and bankruptcy.

"The yield on the railroads' investment of \$18,000,000 has fallen to about two and one-half percent, or less than half the rate considered the danger line by the Interstate Commerce Commission in 1914," says Mr. Payant's analysis, which continues:

"Commodity prices, as reflected in the government index number, have risen 100 per cent since the beginning of the war. In the same period railroad wage rates have advanced 85 per cent. The cost of producing transportation, outside of taxes, and made up of labor and materials, and the cost of materials, of course, consists largely of labor. The average unit of cost of railroad labor and materials have advanced 90 per cent as a result of the war.

"That the unit cost of operation has not risen the full 90 per cent is due to the steady increasing efficiency of the transportation machinery best seen in the growth of freight trainload. In the last three years of company operation the average trainload was increased from 452 to 597 tons, or 32 per cent. Last year it was raised to 625 tons, a further gain of 5 per cent, or a total of 773 tons, or 35 per cent in the four years

of the war. The steady gain in operating economy has kept operating costs from rising as rapidly as prices and labor and labor products, and the actual cost of producing transportation has probably risen about 80 per cent."

LIBERTY BONDS.

Will Always Be a Desirable Investment.

Government bonds issued during the Civil War advanced 33 points. Spanish War bonds, paying only three per cent, sold as high as \$112. Uncle Sam always pays. Some day Liberty and Victory bonds will go above par. Better acquire a few now. You can join the First National Bank's bond club and pay for them in installments if you wish. There is no safer investment in the world.—Adv.

"I doubt your, knowing Isabel," he said stiffly. "You speak of her as you do because she sides with her brother George, instead of with you and Sydney."

"Foot!" Aunt Amelia was evidently in a passion. "You know what's been going on over there, well enough Frank Bronson. I thought you were a man of the world. Don't tell me you're blind! For nearly two years Isabel's been pretending to chaperone Fanny Minster with Eugene and all the time she's been dragging that poor fool Fanny around to chaperone her and Eugene! Under the circumstances, she knows people will get to thinking Fanny's a pretty slim kind of chaperone, and Isabel wants to please George because she thinks there'll be less talk if she can keep her own brother around, seeming to approve. Talk! She'd better look out! The whole town will be talking the first thing she knows!" She—

Amelia stopped, and stared at the

doorway in a panic, for her nephew stood there. She kept her eyes upon his white face for a few strained moments, then, regaining her nerve, looked away and shrugged her shoulders.

"You weren't intended to hear what I've been saying, George," she said quietly. "But since you seem—"

"Yes, I did."

"So!" She shrugged her shoulders again. "After all, I don't know but it's just as well, in the long run."

He walked up to where she sat. "You—yes," he said thickly. "It seems—it seems to me you're—you're pretty common!"

Old Bronson had risen from his chair in great distress. "Your aunt was talking nonsense because she's picked over a business matter, George," he said. "He doesn't mean what she said and neither she nor anyone else gives the slightest credit to such foolishness—no one in the world!"

George gulped, and wet lines shone suddenly along his lower eyelids. They—they'd better not," he said, then stalked out of the room, and out of the house.

Ten minutes later George Amberson, somewhat in the semblance of an angry person plugging out of the mansion, found a pale nephew waiting to meet him.

"I haven't time to talk, George!"

"Yes, you have. You'd better!"

"What's the matter then?"

His nameless drew him away from the vicinity of the house. "I want to tell you something I just heard! Aunt Amelia say, in there. She says my mother's on your side about this division of the property because you're Eugene Morgan's best friend. She said—"

"George panted to swallow. "She said—"

"You look like," said his uncle and laughed shortly. "If it's because of anything Amelia's been saying I don't know you. What else did she say?"

"She said—"

"Amelia said, in there. She says my mother's on your side about this division of the property because you're Eugene Morgan's best friend. She said—"

old cat, and that to give her scandalous meanderings another thought would be the height of folly. By no means susceptible to such pathos as that now exposed before him, he did not lack pity for Fanny, whose almost spoken confession was lamentable; and he was granted the vision to understand that his mother also pined for Fanny infinitely more than he did.

This seemed to explain everything.

He patted the unhappy lady awkwardly upon her shoulder. "There,

"Almost" was Lucy's last word on the last night of George's vacation—that vital evening which she had half conceived to agree upon for "settling things" between them. "Almost," as "good-bye," she meant. And George, discontented with the "almost," but contented that she seemed glad to wear a sapphire locket with a tiny photograph of George Amberson Minster, inside it, found himself wonderful in a new world at the final instant of their parting. For, after declining to let him kiss her "good-bye," as if his desire for such a ceremony were the most preposterous absurdity in the world, she had leaned suddenly close to him and left upon his cheek the velvet feather from a fairy's wing.

"She wrote him a month later."

"No. It must keep on being almost."

"Isn't almost pretty pleasant? You know well enough that I care for you I did from the first minute I saw you, and I'm pretty sure you knew it—I'm afraid you did. I'm afraid you always knew it. But it's such a solemn thing it scares me. It means a good deal to a lot of people besides you and me, and that scares me, too. I shouldn't be a bit surprised to find myself an old lady some day, still thinking of you—while you'd be away and away with somebody else perhaps and me forgotten ages ago. Lucy Morgan, you'd say, when you saw my autograph 'Lucy Morgan? Let me see. I seem to remember the name. Didn't I know some Lucy Morgan or other, once upon a time? Then you'd shake your big white head and stroke your long white beard—you'd have such a distinguished long white beard! and you'd say, 'No I don't seem to remember any Lucy Morgan; I wonder what made me think I did? And poor me! I'd be deep in the ground, wondering if you'd heard about it and what you were saying! Good-bye for today. Don't work too hard—dear!'"

\$3.75

OUR SEMI-ANNUAL Shirt Sale is always an event of which we are very proud and especially so this year.

The Shirts are just the sort men want for all the year round wear. The assortment includes the very latest patterns of woven and printed Madras, Jacquard Weaves, Woven Crepes, fine Percales and Mercerized Cloths. They are cut full and big with soft turn back cuffs in a variety of sizes from 13 1/2 to 18.

After all what a man needs most is shirts that launder nicely and the color stripes of these cannot be moved by an ordinary wash boiler.

There is wisdom in laying in a supply of shirts now for it begins to look as if percales and madras were going so high that it will be many a long day before you have a chance to buy good shirts for as small a sum as \$1.35.

Along With the Shirt Specials, We Have

25 doz. Mens all-silk Roman stripe four-in-hand ties. Special 2 for \$1.00.
100 doz. Men's wash ties from cuttings of extra fine shirting, 3 for \$1.00.

Men's extra fine quality handkerchiefs with neat initials. Box of 6—\$1.00.

Men's Lisle Hose of fast color black, blue, tan and grey. Sizes 9 1/2 to 11 1/2—3 pair for \$1.00.

1 lot of Wovenwright and Phoenix all silk socks. White and champagne colors. Sizes 9 1/2 to 11 1/2, 65c a pair.

50 doz. Men's Athletic, closed-crotch, loose fitting union suits, sizes 34 to 40—65c each.

50 doz. Men's Knit union suits, 1-4 sleeve, ankle length, ecru shade, sizes 34 to 44. Sale price 55c—2 for \$1.00.

50 doz. Mens Rainsook athletic, closed crotch union suits, sizes 34 to 44—\$1.00 each.

50 doz. Boys' athletic union suits—10 to 16 year sizes—60c each.

Boston Garters, single grip—25c a pair.

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands, Strong, Vigorous, Keen-Minded, Men and Women

It has been said of Americans that they work their habits over.

Many become nervous and inefficient by overwork.

By worry, despondency, social affairs, robbing brain and body of needed rest, excessive use of tobacco, indulgence in strong alcoholic drink—excesses of every kind that burn up the vital powers so necessary in these trying times to make both men and women fit to be of help to themselves and others.

It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition, the endurance and the keen mind of those who avoid excesses.

Timidness, despondency, fear, trembling hands, want of confidence and even cowardness, are due to a large measure of abused nerves.

People with plenty of red blood, corded and strong, healthy nerves have no desire to shrink back and lean on others for guidance and support.

There is hardly a nerve-shattered man or woman (unless of an organic disease) in America today who cannot become alert and clear in mind, vigorous and energetic in body in a very few weeks and at trifling cost.

To become strong and ambitious, to feel that work is not drudgery, to have steady nerves, abundance of red blood and power of endurance to be met only a man but as men now go, a superman, you must take seven tablets of Bio-Ten every day for seven days—and take them faithfully.

Take two after each meal and one at bedtime and after seven days take one only after meal until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before, if you do not feel ambitious, more vigorous and keen-minded, the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them.

Bio-Ten is without doubt the grandest remedy for nervous, run-down, weak, anemic men and women ever offered direct from the druggists and is put at all expense in all druggists in this city and vicinity have a supply on hand—sell many packages.

SPOT FURNACE COKE EXPERIENCED USUAL AFTER HOLIDAY REACTION

Made the Round Trip From
24.00 to \$4.50 and
Back Again.

CONTRACT MARKET FIRM

Business Closed for Last Half Ranges
up to \$4.50; Operators Anticipating
Advance Late in Year, Hesitate to
Make Quotations; Foundry Strong.

From The Weekly Courier.

PITTSBURGH, July 16.—The spot furnace coke market has experienced the reaction that almost invariably occurs after Independence Day. All the furnaces in operation are well provided with coke so that there is no inquiry in the market, while there is some extra coke on track available in case anyone wants any. This coke is in the hands of operators who would sell at \$4.00 but who will not shade that figure as they can keep it and apply it on contract shipments. Thus the spot coke market has made the round trip from \$4.00 to \$4.50 and back again. It should be pointed out that the \$4.25 figure was not a mere asking price. There were actual sales, totaling a very considerable tonnage, at \$4.25, but they all occurred before Independence Day or immediately afterwards. The last record of \$4.25 being paid was in transactions on Saturday, July 5.

There is a considerable volume of inquiry for contract furnace coke from furnaces not now in blast, while as to furnaces in blast all the business appears to have been done. While the major portion of the second half contract business was done on a ratio of 5% to one, against basic pig iron at valley furnaces, there was a moderate volume of flat price business. As typical of the business a few cases may be cited. In exceptional instances furnaces preferred to buy from month to month, and one sale at least was made of July coke only, at \$4.00, with prospects that the furnace will pay considerably higher prices later in the year. A contract was made at a regular price of \$4.40, but with \$4.00 as a concession for July only, making an average of \$4.32 for the half year. Another contract was made at a flat price of \$4.25 for the half year. Still another contract, made much later, was at the flat price of \$4.50 for the half year. One furnace bought at \$4.25 for the third quarter and later purchased fourth quarter coke from the same seller at \$4.50, making an average for the half year of \$4.37½. Should basic pig iron stay at \$23.75 for the half year the ratio contracts would yield \$4.12.

While there is inquiry for coke from furnaces not now in blast operators are unwilling to make quotations. If the furnace has no outlet date for blowing in there is the objection on the part of the operator that such a contract would be "loads you win, tails I lose." If pig iron should advance the coke would be taken at a time when it would be easy to sell coke or coal, while if it did not advance the furnace would stay out and the coke operator would get nothing. Some of the furnaces now inquiring, however, are willing to set a date when they will blow in, but operators hesitate to quote because they do not believe a price for coke they consider fair in the circumstances would be at all acceptable to the furnace, and there is no use quoting a price that would simply invite criticism.

Not all coke operators are sure that coke is going to advance sharply later in the year, but the majority of them are very sure that coal is going to do so. With coke at \$4.00 the operator is barely getting his coal value, as the coal market is firm at \$2.25, and charging the coal at that price leaves only 50 cents for conversion into coke, this being probably the minimum cost at any plant while some have higher costs, up to 75 cents. Thus, although flat price contracts have been made at \$4.25 for the half year, and later at \$4.50, no contract market can be quoted, as there is no assurance that furnaces could now buy even at the higher price of \$4.50.

Foundry coke is stronger on all positions. Spot foundry coke is higher and while contract is still quotable at \$5.00 to \$5.50 for the half year there remains scarcely more than one seller at \$5.50 and many are firm at \$5.50 as minimum. As usual, there have been occasional transactions out of the usual run. Thus while the quotation of \$5.50 was generally confined to the half year, there is one case of a contract for the whole twelve months being made at the price. On the other hand, there is a contract in force at \$5.50 for the half year and at \$6.00 for the first quarter of next year, the whole contract expiring March 31, 1920.

Spot foundry coke has definitely strengthened again. While there is a little coke of quite ordinary quality to be picked up now and then at \$4.75, coke that formerly was bringing only \$4.50, there are several brands that were formerly held at \$5.00 that are now bringing \$5.50, and bringing the price without difficulty. In fact, demand is so good with some operators who have a \$5.50 price that they are not soliciting business. The market is now quotable as follows:

From foundry \$4.75
Contract foundry \$5.00 to \$5.50
The Pittsburgh district coal market continues to gain in strength. Sales of steam mine-run at under \$2.35 are more or less exceptional. Connells-ville coke is bringing \$2.35 for mine run right along, and higher prices than this are being obtained for export. Gas coal has brought \$2.50 and higher for mine-run, with prices up to \$2.75 paid for screened.

The local pig iron market while not as active as in June is still not without life, there being a fair running demand, chiefly from customers who

are partly covered, but not fully covered for the half year. The complexion of the market has changed whereby it is now largely a seller's market and buyers pay the price with little if any quibble. The market is quotable as follows:

Base metal \$27.95
Base metal \$28.75
Foundry \$28.75
Forge \$28.75

These prices are for Valley furnaces, freight to Pittsburgh being \$1.40.

Gilard furnace, to which coke shipments have been going forward for a week or two, is about to blow in. Weirton, the new blast at Weirton, W. Va., will blow in July 21 and will be a merchant stock until the owners complete their steel plant. Alcoa at Sharpville is likely to blow in very shortly, as is Dover, Cherry Valley is going out for much needed re-lining, and Clinton is about to go out for re-lining and some general improvements.

STEEL PRODUCTION HOLDS STEADY AT ABOUT 70 PER CENT

Market Would Be Helped By Orders From the Railroads; Would Tend to Equalize Demand.

SPECIAL TO THE WEEKLY COURIER.
NEW YORK, July 16.—The American Metal Market and Daily Iron & Steel Report will review the steel and iron trade tomorrow as follows:

Measured by the production of ingots, the steel mills were operating at about 70 per cent of capacity at the end of June against about 50 per cent at the middle of May, the sharp recovery reflecting the increasing demand for steel that began about the second week in May. Since the first of this month steel production has been practically steady at about 70 per cent of capacity. No large further increase in production of steel is likely until the backward lines, particularly rails, plates and shapes, show more activity. Entrance of the railroads into the market would help greatly, also expansion in large construction work thus far is confined chiefly to dwelling houses, reflected in heavy demand for nails and for sheets for metal lath and other building material. Export demand for nearly all products is increasing steadily, and the demand is very widespread geographically. Japan, China, South America and Africa are good buyers. Surplus was naturally left upon receipt of a large order for sheets for Holland. Exports in May represented between 20 and 25 per cent of the month's production, which was the lightest of the year, but with demand growing the proportion may still possibly obtain with the higher proportion. Shipments to domestic consumers are now fully equal to the heaviest shipments before the war. From this viewpoint the present idle capacity may be ascribed to the new construction that has occurred since 1914, representing an expansion of 40 per cent.

1200 Shirts!

to be sold during our Semi-Annual Shirt Sale now in progress.

WRIGHT-METZLER CO

Gold Bond Stamps—

are given with every sale and when comparing prices think of that as an additional discount.

July The Month of Opportunity!

EVERY YEAR thrifty people plan to do a lot of shopping in July, because it is a great clean-up month, when stocks are sold out to get ready for the new season. But this year there is a far greater reason why July is a wonderful month for economical shopping.

Market prices are steadily advancing!

As the costs to all sorts of labor goes up, the costs of all sorts of materials must follow; for labor is the largest factor of cost, in raw products as well as in manufactured products; and wherever the hand of man or woman touches a commodity in the process of its manufacture, it adds to its cost, in a larger degree than ever before.

By next Fall you will have to pay more for almost everything you buy. But today and all this month, our store is filled with wanted goods selling at the present low basis of cost, and every item, whether marked at a special July price or not, offers a large price saving, when compared with what you will need pay for the same goods in the Fall.

Thrifty folks who read the signs of times will buy everything possible now and lay it away for next Fall.

From time to time different departments of the store are having special price reductions on scores of things and no foresighted man or woman will miss the opportunity presented except at their large loss when they buy later on.

Special sales now in progress:

Semi-Annual Men's Shirt Sale
Millinery Clearance Sale

Next to Ordering His Ice

and putting up his screens a man's first duty is to see that his light-weight clothes are laid out for a quick entrance when the heat rings the bell to start the day's proceedings.

Take example from the man who waited to order his full supply of coal last winter, and don't keep putting the summer clothes question off and off until three's a fine up and a waiting list is made through.

Now is the time for action, perhaps you've been thinking so the past few days. Why roast—when you can buy feather-weight suits

MUCH-CRITICIZED "Y" HAD MANY HARD PROBLEMS TO SOLVE

Serving A. E. F. No Easy Job
With Ordinary Sources of
Supply Closed.

MAKES PAPER IN SPAIN

Enormous Quantities Bought in England But Delivery Could Not Be Made So Whole Industry Was Taken Over in Nearby Neutral Country.

The much-criticized Y. M. C. A. had a lot to contend with, according to figures given out by departing secretaries in Paris by Mr. Desnoy, director of the general supply division. It had to serve, not where it chose, but where it was sent, and, unlike the Quartermaster's Department, had to meet the cost of freight and insurance. The cost of carrying a ton of freight across the ocean ran as high as \$200, with 25 per cent more for insurance.

These are figures compiled from 6,000 shipping orders, showing the stuff distributed from base warehouses by the "Y" for the 10 months from June 1, 1918, to April 1, 1919, which do not include all the shipping orders nor purchases from the Quartermaster during January, February and March, 1919.

Letter heads, 394,717,000; envelopes, 225,221,700; post cards, 10,000,000; candy, 477,445 pounds; candy, 10,158,305 packages; cocoa, 1,122,467 pounds; milk, 2,365,953 cans; chewing gum, 13,220,000 packages; jam, 6,401,944 cans; biscuits, 50,365,940 packages; cigars, 41,550,033; smoking tobacco, 13,184,928 tins; cigarettes, 1,452,356,150; chocolate, 2,725,182 packages.

With enormous quantities of stationery bought in the United States but not delivered, the "Y" went to Spain, employed a gang of men to cut down trees and make pulp, secured other gangs to make it into paper and still others to cut and print it and make envelopes. Whole villages were employed making paper and envelopes so, the doughboy could write home, the statement says. Unable to get jam for the boys, the "Y" went to Spain again, bought fruit and made it into pulp which was transported to Paris. The Quartermaster was then appealed to for sugar and upon its being furnished jam was made in Paris. It cost more than if it had been imported from the United States, which was why a higher price was charged in the "Y" canteens than at the Army sales commissaries.

As for the 50,000,000 packages of biscuits—before these could be turned out the control of French factories was taken over by an expert from an American biscuit company, who cleaned them from top to bottom.

In all, the "Y" secretaries ran 42 factories—even house factories, with sawmills and planing mills contributing.

UNFILLED ORDERS

Of U. S. Steel Corporation for June Showed a Surprising Gain.

The United States Steel Corporation's unfilled order statement surprised nearly all observers. For six months, December to May, inclusive, large losses in unfilled obligations had been shown each month, the losses aggregating \$40,000 tons a month, while the report made this week shows that June recorded a gain of no less than \$10,545 tons. This clearly marks the resumption of contracting. Most of the contracts have been for the second half of the year, but in a few exceptional instances it is understood contracts were accepted for the twelve-month period to July 1, 1920. Some branches of the finished steel trade do not accept business so far ahead.

Confluence.

CONFLUENCE, July 17.—The Confluence baseball club went to Markleton Monday evening and defeated the team there, 9-1.

The Baltimore & Ohio railroad tower here which is being rebuilt after being damaged by a wreck is nearing completion and will soon be ready for occupancy.
